

In 1980 Tilly Northedge and I set up a design studio to shine a light on the dull world of information design and for 26 years, as Grundy & Northedge we did just that, inventing a visual language in the process that became our signature.

To mark 15 years as **Grundini I've** gathered together 20 key diagrams from this period that reflect my information design legacy. From the Human body to the Tree of knowledge, from Henry VIII to **Heathrow** airport and

beyond.
